It appears that the N&S lost a ton of RR ballast at 272 Derby again with the rain. Please create a work order to dig this out again. Thanks.

I have asked the owner to contact the RR again about this. I have tried the following numbers in the past-they hung up on me when they found out where it was.

N&S Main - 865-521-1480

Local Track Supervisors (Joe Perezi, Tony Burchfield) - 859-421-1696

Ben Krebs, PE, CFM  
Municipal Engineer Sr.  
LFUCG-DWQ

Storm drain is blocked. Must have happened with recent rain.
